From January 2019 FiltaFry Berlin will have a new franchise partner as a manager. Following his move from Hagen, Westphalia, to Werder in Brandenburg, Andreas Selent will oversee the mobile fryer service for the greater Berlin/Potsdam area. He is taking over the company from Thomas Weisser, who stepped down mid-2018 due to health reasons.

Andreas Selent will also retain the service staff member employed up to now and is immediately starting out with a second FiltaFry van. "It is fantastic that I was able to join a franchise company that already has overcome the initial hurdles, already works well and all that remains is to expand", says Andreas Selent. "Because I soon plan to almost completely focus on new customer acquisition and management, the search for a second and potentially third staff member is also in full swing."
